SRHI Inc. (formerly Sprott Resource Holdings Inc.) 2020 Second Quarter Report

Management's Discussion and Analysis
of Financial Position and Results of Operations

MANAGEMENT'S DISCUSSION AND ANALYSIS

*The following is management's discussion and analysis ("**MD&A**") of the financial condition, cash flows and future prospects of SRHI Inc. ("**SRHI**" or the "**Company**", formerly Sprott Resource Holdings Inc.). This document is prepared as at August 7, 2020 (unless otherwise stated) and should be read in conjunction with the Company's unaudited condensed interim consolidated financial statements for the three and six months ended June 30, 2020, including the notes thereon (the "**Financial Statements**"), the Company's audited consolidated financial statements for the year ended December 31, 2019, including the notes thereon and the Company's MD&A for the year ended December 31, 2019. The Company prepares its Financial Statements in accordance with International Financial Reporting Standards ("**IFRS**") as issued by the International Accounting Standards Board ("**IASB**"). All amounts are expressed in United States dollars ("**USD**") unless otherwise indicated. Additional information on the Company and its operations, including a consolidated National Instrument 43-101 Standards of Disclosure for Mineral Projects ("**NI 43-101**") compliant technical report on the Minera Tres Valles project (the "**Technical Report**"), can be accessed at www.sedar.com, and may also be found on the Company's website at www.srhi.ca.*

Forward-looking statements and information are used throughout this document. See the Forward-Looking Information section at the end of this document highlighting the caution that a reader should place on all forward-looking information.

CURRENT EVENTS

The Coronavirus (COVID-19) introduction to our global society over the past several months is generational with different reactions observed from country to country. COVID-19 implications remain unknown and continue to move at a pace unmatched in recent history. The world's financial marketplace has seen record breaking volatility with the copper price sharing similar dynamic movements. What once were significant losses across the world's financial marketplace have turned to near full recoveries. Social dislocation continues to be prevalent yet economies previously battered are showing signs of restarting.

The situation is dynamic with various cities and countries around the world responding in different ways to address the outbreak. Countries have closed borders, travel has plummeted and some health care systems are threatened to be overrun. However, there are a sizable number of countries that have made tremendous progress in containing the spread of COVID-19. The Company and its primary operating subsidiary, Minera Tres Valles SpA ("**MTV**"), have been impacted to varying degrees by this ongoing dynamic. Direct impact on the operations has been limited, but the impact on copper prices, as well as the impacts on raw materials and services necessary has been significant.

At the end of the first quarter, the Company announced measures in response to MTV's local government's request to temporarily halt or restrict operations for two weeks as a measure to slow the advance of the pandemic. These included significantly reducing the employee base required to maintain minimal operations, including the necessary staff to operate and monitor the leach pad, operate its solvent-extraction and electrowinning processing plant where copper cathodes are produced and conduct preventative maintenance of key equipment. These measures continue to be in place.

As the impact of COVID-19 continued to unravel world economies and cast doubt on the visibility of future copper prices, MTV commenced reorganization proceedings by filing a Judicial Restructuring Procedure (“**JRP**”) in Chile on May 12, 2020 (the "**Process**"). This action, for a period of time, protects MTV from its creditors allowing it sufficient time to complete its refinancing efforts to allow for the completion of the construction of its high grade, low cost block caving underground mine. The initial court order obtained provides a stay of creditor claims and the exercise of contractual rights providing the necessary protection to allow MTV to negotiate repayment terms with its creditors that should provide a financial foundation to grow MTV's business. This is an event of default under the secured prepayment facility (the "**Facility**") that MTV has with its Lenders (defined below) that could result in the Company's $10 million guarantee to be called upon on demand. At this time and based on constructive discussions with MTV's Lenders, MTV expects a successful negotiation with its creditors, providing additional capital to be committed by both the Company (up to $10 million to fulfill its guarantee) and MTV's Lenders so that the construction of the Papomono Masivo incline block caving underground mining project can commence. While under construction for the next 12 months, MTV will reduce operations, draw down inventory, process ore from third party miners and continue its tolling services. Upon successful completion of the construction project, MTV expects to begin mining the higher grade, lower cost ore from the Papomono Masivo.

The extent of the effect of the COVID-19 pandemic on the Company’s future business activities is uncertain.

Since March 23, 2020 when the copper price reached a low of $2.10 per pound, it has rallied considerably closing at $2.73 per pound on June 30,2020 and trading in the $2.90 to $2.95 range into July and August. The Company remains confident in the longer-term outlook for copper, however global economic uncertainty and COVID-19 are expected to provide volatility to copper prices in the coming quarters. Although global financial markets and the copper price have recovered impressively during the second quarter, the extent and duration of impacts that the pandemic may still have on the copper price, suppliers and employees and on global financial markets is not known at this time, and could be material.

Under the current offtake agreement (the "**Offtake**"), the offtake provider (that is also one of the Lenders, the "**Provider**") exercised the fixed price clause in July 2020 whereby 25% of MTV's projected production for the period August 2020 to July 2022 has been sold to the Provider at a fixed price of $2.89 per pound. This provides MTV with a certain amount of cash flow predictability at a time when (i) uncertainty around the global economic recovery still exists and (ii) MTV is in discussions with its Lenders and other creditors to establish an agreement during the Process.

As a result, the Company has not issued 2020 annual guidance. The overall effect on the Company will depend on the outcome of the Process and if successful, how quickly operations can safely return to normal, and on the duration of impacts on suppliers, all of which are unknown at this time. The resumption of normal operating activities is highly dependent on the outcome of the Process, the progression of the pandemic and the success of measures taken to prevent transmission, which will influence when health and government authorities remove various restrictions on business activities within Chile. During the six months ended June 30, 2020, one employee at MTV contracted COVID-19 and was quarantined with other employees that may have had contact, who were also quarantined. The employee has since recovered with all other traced contacts testing negative to the virus.The Company continues to protect the safety and health of its employees, contractors and the communities in which it operates. The Company has restricted travel, instructed employees to remote work wherever possible, including at corporate offices.

BUSINESS OVERVIEW

SRHI is a publicly-listed company currently focused on expanding MTV's copper mining operation in Chile and divesting of its portfolio investments. Based in Toronto, Ontario, Canada, SRHI's business and portfolio investments are concentrated in the mining sector. The Company controls one business ("**Strategic Asset**") and holds a small portfolio of investments ("**Portfolio Investments**").

On June 23, 2020, the Company agreed to end its management services relationship with Sprott Consulting Limited Partnership ("**SCLP**") and is transitioning to establish a management team independent of SCLP. Please see the section *Management Fee* elsewhere in this MD&A for additional information.

The Company's current principal Strategic Asset is its 70% equity interest in MTV, a producing copper mine that was acquired in October 2017. MTV's main asset is the Minera Tres Valles mining complex, located in the Province of Choapa, Chile which includes a fully integrated processing operation and four active mines. Ore is extracted primarily from the Don Gabriel open pit mine ("**Don Gabriel**") and the Papomono underground mine ("**Papomono**"), both of which are located approximately 10 kilometers north of the town of Salamanca, 300 kilometers north of Santiago, Chile. MTV's objective is to carry out mining activities associated with exploiting and processing minerals for which it has a crushing and processing plant with nameplate capacity of 7,000 and 6,000 tonnes per day, respectively. MTV's heap leach pads and solvent-extraction and electrowinning processing ("**SX-EW**") plant (production capacity of 18,500 tonnes per year of copper cathodes) are located approximately 7 kilometers north of Salamanca. The first shipment of copper cathodes from MTV took place in January 2011.

	Business Description	**Private/ Public**	**Proportion of Ownership Interest**
Strategic Assets			
MTV	Mining and copper cathode production	Private	70.0%
Portfolio Investments			
Beretta Farms Inc. ("**Beretta**")	Inactive subsidiary undertaking dissolution	Private	50.2%
Lac Otelnuk Mining Ltd. ("**Lac Otelnuk**")	Development of iron ore asset	Private	40.0%
Uranium Royalty Corp. ("**URC**")	Holder of uranium interests	Public	n/a

SRHI consolidates the operations and financial results of MTV. Up to an including June 29, 2020, Beretta was accounted for as a business held for sale and its operations and financial results were consolidated. On June 30, 2020, Beretta completed the sale of its business for cash consideration of $3.7 million. Beretta's shareholders approved the dissolution of Beretta and it is intended for Beretta to distribute its net cash over the next twelve months in two tranches beginning in the third quarter of 2020. As a result and effective June 30, 2020, Beretta has been reclassified to a Portfolio Investment until it is dissolved and all net assets distributed to its shareholders.

The remaining investments of the Company are accounted for as portfolio investments (financial assets) valued at fair value through profit or loss. Lac Otelnuk is an equity holding position and the investment in URC are warrants exercisable into common stock of URC.

FINANCIAL AND OPERATIONAL SUMMARY

	Three months ended		Six months ended	
Financial information (in thousands)	**Jun. 30, 2020**	Jun. 30, 2019	**Jun. 30, 2020**	Jun. 30, 2019
Revenue	**$ 4,943**	$ 8,078	**$ 12,090**	$ 16,686
Gross loss	**$ (2,012)**	$ (3,103)	**$ (8,994)**	$ (4,663)
Net loss from continuing operations	**$ (5,256)**	$ (12,708)	**$ (20,832)**	$ (15,330)
Net loss from discontinued operations	**$ —**	$ (537)	**$ (2,241)**	$ (2,054)
Net loss for the period	**$ (5,256)**	$ (13,245)	**$ (23,073)**	$ (17,384)
Adjusted EBITDA from continuing operations [1]	**$ (3,271)**	$ (2,775)	**$ (1,540)**	$ (4,734)
Gain (loss) on portfolio investments	**$ 1,038**	$ (6,821)	**$ (1,294)**	$ (5,159)
Impairment of non-current assets	**$ —**	$ —	**$ (7,628)**	$ —
Write-down of inventory	**$ (301)**	$ (865)	**$ (4,106)**	$ (865)
Cash used in operating activities before working capital changes	**$ (1,069)**	$ (2,836)	**$ (3,315)**	$ (4,136)

[1] Adjusted EBITDA is earnings before interest, taxes, depreciation and amortization and further adjusted to remove the Company's loss on portfolio investments, write-down of inventory and impairment of assets. It is a non-IFRS performance measure. Refer to Non-IFRS Performance Measures section of the MD&A for discussion.

	As at	
(in thousands)	**Jun. 30, 2020**	Dec. 31, 2019
Cash and cash equivalents	**$ 12,122**	$ 11,607
Working capital (deficiency)[1]	**$ (49,309)**	$ 4,502
Portfolio investments	**$ 3,350**	$ 6,606
Total equity attributable to owners of the Company	**$ 30,353**	$ 47,309
Non-controlling interest	**$ 1,053**	$ 9,412

[1] Working capital is a non-IFRS performance measure. Refer to Non-IFRS Performance Measures section of the MD&A for discussion.

The following operating metrics are specific to MTV's operations.

	Three months ended		Six months ended	
Operating information	**Jun. 30, 2020**	Jun. 30, 2019	**Jun. 30, 2020**	Jun. 30, 2019
Copper (MTV Operations)				
Total ore mined (thousands of tonnes)	**53**	288	**301**	552
Total waste mined (thousands of tonnes)	**97**	1,577	**735**	3,076
Ore Processed (thousands of tonnes)	**86**	354	**385**	665
Grade (% Cu)	**0.98%**	0.62%	**0.85%**	0.62%

Operating information		Three months ended Jun. 30, 2020		Jun. 30, 2019		Six months ended Jun. 30, 2020		Jun. 30, 2019
Copper (MTV Operations)								
Cu Production (tonnes)		**1,228**		1,737		**2,712**		3,530
Cu Production (thousands of pounds)		**2,707**		3,829		**5,979**		7,783
Change in inventory ($000s)		**(1,184)**		3,877		**(4,410)**		8,022
Cash cost of copper produced [1] (USD per pound)	**$**	**2.43**	$	2.63	**$**	**2.89**	$	2.45
Realized copper price (USD per pound)	**$**	**2.42**	$	2.70	**$**	**2.32**	$	2.75

[1] *Cash cost per pound of copper produced includes all costs absorbed into inventory less non-cash items such as depreciation and non-site charges. It is a non-IFRS financial measure. Refer to Non-IFRS Performance Measures section of the MD&A for discussion.*

Key Corporate and Growth Initiatives

Total material crushed in the six months ended June 30, 2020 was 385 thousand tonnes primarily from operations at the Don Gabriel and Rajo Norte open pit mines. This compares to 665 thousand tonnes in six months ended June 30, 2019.

Don Gabriel was historically the largest contributor of ore to MTV and together with other ancillary deposits, ore movement during the last six months in 2019 was more than 100,000 tonnes per month, a first for MTV. The first three months of 2020 were impacted by several external forces including COVID-19, resulting in production levels averaging approximately 54,000 tonnes per month from Don Gabriel. In order to conserve cash and to focus on high recovery and lower cost ore, the open pit operation at Don Gabriel was idled midway through the first quarter of 2020 and remained that way through the second quarter.

For similar reasons, ore production from the Papomono underground mine was curtailed at the end of the first quarter of 2020 and remained idle for the three months ended June 30, 2020, extracting minimal ore as a part of care and maintenance. A large component of ore production growth remains part of the long-term mine plan now expected in 2021 (instead of 2020) which will come from the higher-grade Papomono Masivo deposit. Subject to a successful Process, MTV plans to begin construction and development of the incline block caving of Papomono Masivo during the fourth quarter of 2020, and following a 12 month construction phase, is expected to ultimately generate underground production in excess of 2,000 tonnes per day while halving unit-mining costs.

Production in the second quarter of 2020 was lower than both the first quarter of 2020 and the fourth quarter of 2019 due to the mine idling described above. Several external forces experienced by MTV in the first quarter of 2020 continued into the second quarter including Chile's worst drought in 60 years, the social unrest uprising that created issues with suppliers and COVID-19 pandemic impacts. MTV continues to assess its options for mine sequencing in 2020 given the continuing COVID-19 pandemic impacts and the Process that has been initiated by MTV. A new short term mine plan was modified to include largely oxide ore which has a shorter leach cycle while the Don Gabriel and Papomono sulfide mines were put in care and maintenance.

Cost per pound (see *Non-IFRS Performance Measures* elsewhere in this MD&A) produced increased to $2.89 for the six months ended June 30, 2020 compared to $2.45 for the six months ended June 30, 2019. The increase in cost per pound is largely driven by the write-down in inventory of $4.1 million.

Cost per pound (see *Non-IFRS Performance Measures* elsewhere in this MD&A) produced was $2.43 for the three months ended June 30, 2020 compared to $2.63 for the three months ended June 30, 2019. This decrease reflects the cost savings created by the change in mine sequencing and modifications made to the operations.

Following the pre-feasibility level estimates for Papomono in the Technical Report, detailed engineering has been completed. Initial construction of the block caving mine is expected to take 12 months and be completed in 2021 subject to a successful Process for MTV.

Mineralized material supplied by Empresa Nacional de Minería ("**ENAMI**") and local miners has increased over the first quarter of 2020 as copper prices have increased. The processing of third party high grade ore has good margins, utilizes excess capacity, requires no capital spend and benefits local community members.

The implementation of chloride leaching ("**Salt Leach**") involves adding rock salt (NaCl) in the agglomeration stage of the crushing plant allowing the mixed sulphide and oxide material to cure on the heap for 15 to 30 days before commencing leaching. The accelerated oxidation of sulphide material by the addition of salt to the heaps is expected to improve copper recoveries by approximately 8%, reduce acid consumption, and decrease the leach time by approximately 40%. Unfortunately, the drought conditions being experienced in Chile had a negative effect on MTV's leaching operations near the end of 2019 and continued into the first half of 2020 with the operation not having enough solution available to irrigate all the ore being placed on the leach pads. Chile entered the rainy season in the second quarter and has provided adequate amounts of water to comfortably sustain and expand operations, if necessary. The early rains received from the start of this rainy season have helped MTV and the surrounding areas that were in desperate need for water. The higher levels of water will be required to support a ramp up of tonnes added to the Salt Leach. However, should drought conditions or water supply challenges reappear in the foreseeable future, further adjustments to the operations at MTV will be required.

In December 2019, MTV entered into the Facility with Anglo American Marketing Limited and a fund under investment management of Kimura Capital LP (referred to as the "**Lenders**”). MTV, the Company and the Lenders are currently in advanced discussions to amend the Facility as part of the Process to accommodate the operational impacts resulting from the several external forces impacting MTV, including the COVID-19 outbreak (see *Liquidity and Capital Resources* elsewhere in this MD&A).

On May 12, 2020, MTV commenced reorganization proceedings by filing a JRP in Chile to seek protection from creditors that is expected to give MTV sufficient time to complete its refinancing efforts to allow for the completion of the construction of its underground mine. This is similar to filing for creditor protection under the Companies’ Creditors Arrangement Act in Canada. Under the Facility agreement, this is an event of default. The Lenders have informed MTV and the Company that it has chosen not to exercise its rights and remedies under the Facility at this time as a consequence of this event of default, but may choose to do so at any time in the future without any further written notice.

Cash Position

Cash and cash equivalents increased to $12.1 million at June 30, 2020 from $11.6 million at December 31, 2019 as the Company realized proceeds on the disposition of two Portfolio Investments and MTV utilized its opening cash balance to support the project's operations including capital expenditures of $1.3 million during the six months ended June 30, 2020. The Lenders have authorized up to $2 million of the $7 million restricted cash to support the operations of MTV while reorganization proceedings are ongoing.

Capital Expenditures

Capital expenditures for the six months ended June 30, 2020 amounted to $1.3 million and were primarily pre-stripping waste rock at Don Gabriel in the first quarter in preparation of the next mining phases and final costs relating to the Salt Leach project.

Investment Portfolio Divestment

The Company continues to work on its divestment strategies for its Investment Portfolio. During the three months ended June 30, 2020, the Company disposed of all its shares of Corsa Coal Corp. ("**Corsa Coal**") and URC for gross proceeds of $2.8 million. On June 30, 2020, Beretta completed the sale of its business for cash consideration of $3.7 million. Beretta's shareholders have approved the dissolution of Beretta and it is intended for Beretta to distribute its net cash over the next twelve months in two tranches beginning in the third quarter of 2020.

Management expects that the remainder of the Investment Portfolio could be divested this year.

MTV operating performance for the six months ended June 30, 2020

- Mined a total of 274,234 tonnes of ore at a grade of 0.85% copper from open pit operations
- Mined a total of 27,253 tonnes of ore at a grade of 0.86% copper from Papomono
- Produced 6.0 million pounds of 99.99% pure copper cathodes
- Revenue of $12.1 million generated from (i) the sale of copper cathodes and (ii) tolling charges for mineralized material supplied by ENAMI
- Gross loss for the period was $9.0 million
- Cash cost per pound of copper produced for the period (see Non-IFRS Performance Measures) was $2.89
- Realized price per pound of copper sold was $2.32 compared to $2.75 for the six months ended June 30, 2019

Company financial performance for the six months ended June 30, 2020

- Net loss for the period was $23.1 million or $0.69 per share
- Adjusted EBITDA (see Non-IFRS Measures) from continuing operations for the period was negative $1.5 million which excludes a write-down of inventory of $4.1 million, loss on portfolio investments of $1.3 million and an impairment charge of $7.6 million

MTV operating performance for the three months ended June 30, 2020

- Mined a total of 52,191 tonnes of ore at a grade of 0.98% copper from open pit operations
- Mined a total of 480 tonnes of ore at a grade of 0.86% copper from Papomono
- Produced 2.7 million pounds of 99.99% pure copper cathodes
- Revenue of $4.9 million generated from (i) the sale of copper cathodes and (ii) tolling charges for mineralized material supplied by ENAMI
- Gross loss for the quarter was $2.0 million
- Cash cost per pound of copper produced for the quarter (see Non-IFRS Performance Measures) was $2.43
- Realized price per pound of copper sold was $2.42 compared to $2.25 for the three months ended March 31, 2020 and $2.70 for the three months ended June 30, 2019

Company financial performance for the three months ended June 30, 2020

- Net loss for the quarter was $5.3 million or $0.16 per share
- Adjusted EBITDA (see Non-IFRS Measures) from continuing operations for the quarter was negative $3.3 million which excludes a gain on portfolio investments of $1.0 million and write-down of inventory of $0.3 million

OUTLOOK

Outlook

Creditor Protection for MTV

After careful consideration of all available alternatives following thorough consultation with its advisors, the Company and MTV determined that it was in the best interests of MTV and all of its stakeholders to file for an application for creditor protection under the JRP.

The initial court order obtained provides a stay of creditor claims and the exercise of contractual rights with a view to provide the necessary protection to allow MTV to negotiate repayment terms with its creditors that should provide a financial foundation to grow MTV's business.

At this time and based on constructive discussions with the Lenders and other creditors, MTV expects that upon a successful negotiation with its creditors, that additional capital will be committed by the Company and the Lenders to begin construction of the Papomono Masivo incline block caving underground mining project.

It is expected that creditors will vote on a proposed reorganization plan for MTV in late August or early September.

Coronavirus (COVID-19)

At the onset of the COVID-19 outbreak, the virus created near-term copper price uncertainty and volatility, and significant losses across the world's financial marketplace and social dislocation. As the quarter came to a close, the copper price rebounded favorably and the world's financial markets recovered most, if not all, their prior losses. The situation is dynamic with various cities and countries around the world responding in different ways to address the outbreak. The extent of the effect of the COVID-19 pandemic on the Company's business activities remains uncertain. This has had a direct effect on MTV's budgeted cash flows and evolving mine plan for at least 2020, the extent of which cannot be accurately predicted at this time. The Company will have better visibility at the conclusion of the Process.

Social Unrest

In October 2019, social unrest in Chile erupted throughout the country. Deaths, vandalism and looting were reported in Santiago and other regions of the country. As of June 30, 2020, the social unrest had retreated as COVID-19 became the focus of the country but its impacts on Chile's economy continue. The short-term finance market in Chile has been severely affected by these continuing events and the pending constitutional plebiscite. This geopolitical uncertainty and current global economic downturn has reduced the attractiveness of Chile as an investment destination for capital providers resulting in a marked decrease in available short-term working capital finance solutions for MTV and its suppliers.

Chile's Drought

Chile entered the rainy season in the second quarter and has provided adequate amounts of water to comfortably sustain and expand operations, if necessary. Prior to this quarter, the province of Coquimbo, where the mine is located, was suffering from the most severe drought in 60 years, which affected water access to the heaps and impacted copper production. During the peak of the drought, the flow of water from various sources including the Choapa River, was not sufficient to fulfill MTV's water rights necessitating production curtailment.

At the beginning of the quarter, MTV was able to secure water sources that currently yield the required water flows to maintain its revised planned operations. The early rains received from the start of this rainy season have also helped MTV and the surrounding areas that were in desperate need for water. However, should drought conditions or water supply challenges reappear in the foreseeable future, further adjustments to the operations at MTV will be required.

Revised Mine Plan

The combination of the aforementioned events has provided MTV with a challenging backdrop for its revised mine plan. The current proposed mine plan (the "**Plan**") is being finalized with input from the Lenders and remains subject to approval by the board of directors (the "**Board**") of the Company. As part of this Plan, the Company and MTV instituted at the end of March 2020 the following interim changes to its operations with additional actions continually being assessed.

- Significant reduction to the employee base required to maintain minimal operations;
- Maintain the necessary staff to operate and monitor the leach pad;
- Maintain the necessary staff to operate its solvent-extraction and electrowinning processing plant where its copper cathodes are produced; and,
- Maintain the necessary staff to conduct preventative maintenance of key equipment

These events have contributed to increased financial stresses on MTV and its stakeholders are cooperatively working towards a fulsome solution while in the Process. The Lenders have committed to releasing $2 million of MTV's restricted cash to support MTV's operations while the Process is ongoing. A significant part of the Plan is the development and construction of the Papomono Masivo incline block caving in 2020 with expected completion in 2021. This is an important project given the high grade ore and low per tonne cost once in production. However, additional capital is now required to execute the Papomono Masivo incline block caving and fund current expected operations and all critical stakeholders are participating in providing a funded solution to accomplish this (see *Liquidity and Capital Resources* elsewhere in this MD&A).

Expansion Projects

The Company has plans to complete the remaining two expansion projects identified in the Technical Report: the Don Gabriel expansion and the development and construction of the Papomono Masivo incline block caving subject to a successful outcome of the Process.

The expansion of Don Gabriel began in the second half of 2018 and was supported by the Company's working capital and MTV's operational cash flows. In the first quarter of 2020, the expansion at Don Gabriel was halted due to the low copper price and working capital issues. The expansion remains part of the longer life of mine plan.

As outlined in the Technical Report, the development and construction of Papomono Masivo and ancillary deposits require $21 million in capital expenditures over 18 months. Although some of this amount has been incurred, the majority of these capital expenditures will be completed if there is a successful resolution to the Process. This would provide for increased production at the higher-grade Papomono Masivo underground project to commence in 2021.

The Salt Leach project development and construction commenced in mid-2018 and was completed in December 2019 with no interruption to the SX-EW plant operations. In the first quarter of 2020, the build up of salt concentration in the leach pad was delayed due to working capital issues and availability of supplies. It is the intention to increase the addition of salt to design parameters once the Process concludes and the Plan implemented.

Upon MTV completing the remaining capital projects, cash flows generated from this expansion are anticipated to provide MTV the ability to exploit the exploration upside of its significant land package of over 44,334 hectares of mineral rights and more than 100 copper occurrences identified that require more exploration effort.

2020 Guidance

The Company is not in a position to provide guidance for 2020 given the broad level of uncertainty and, more particularly, the quickly developing issues impacting MTV. MTV is currently working with its stakeholders (including the Company) during the Process to finalize the Plan to support MTV through this period. Please see the section *Liquidity and Capital Resources* elsewhere in this MD&A for additional information.

CORPORATE STRUCTURE

The consolidated accounts of the Company include (i) SRHI's two wholly-owned subsidiaries; SRHI Resource Corp. ("**SRC**", formerly Sprott Resource Corp.) and Adriana Mining Ltd. ("**ADM**"); (ii) SRC's wholly-owned subsidiary, SRH Chile SpA ("**SRH Chile**"); (iii) MTV, which owns the Chilean copper producing mine; and (iv) the Company's equity incentive plan vehicle, the Trust (defined below).

On June 23, 2020, Sprott Resource Holdings Inc. and its wholly-owned inactive subsidiary Sprott Resource Coal Holding Corp. amalgamated and continued as SRHI Inc.

The subsidiaries of SRHI are listed below. Each of the entities has a December 31 year end.

Entity	Location	Proportion of Ownership Interest	Non-Controlling Interest
SRC	Canada	100%	—
ADM	Canada	100%	—
2014 Employee Profit Sharing Plan (the "**Trust**")	Canada	—	—
SRH Chile	Chile	100%	—
MTV	Chile	70%	30%

The Company is deemed to control the Trust which provides the Company with its equity incentive plan.

Up to an including June 29, 2020, Beretta was accounted for as a business held for sale. On June 30, 2020, Beretta completed the sale of its business for cash consideration of $3.7 million. Beretta's shareholders have approved the dissolution of Beretta and it is intended for Beretta to distribute its net cash over the next twelve months in two tranches beginning in the third quarter of 2020. As a result and effective June 30, 2020, Beretta has been reclassified to a Portfolio Investment until it is dissolved and all net assets distributed to its shareholders.

Prior to June 30, 2020, Beretta is referred to as an asset held for sale and/or discontinued operations throughout this MD&A.

OPERATIONAL UPDATE

Six Months Ended June 30, 2020

	Six months ended	
	Jun. 30, 2020	Jun. 30, 2019
Tonnes mined - underground operations	**27,253**	77,383
Tonnes mined - open pit operations	**274,234**	474,371
Total ore mined (tonnes)	**301,487**	551,754
Waste mined - open pit operations (tonnes)	**734,908**	3,075,796
MTV mine processed ore (tonnes)	**309,058**	542,791
Third-party processed ore (tonnes)	**49,689**	79,888
ENAMI tolling processed ore (tonnes)	**26,215**	42,356
Total processed ore (tonnes)	**384,962**	665,035
Metallurgical recovery - underground material (%)	**70.2%**	80.7%
Metallurgical recovery - open pit material (%)	**73.5%**	81.2%
Underground average ore grade (Cu%)	**0.86%**	1.03%
Open pit average ore grade (Cu%)	**0.85%**	0.55%
Copper cathode production (tonnes)	**2,712**	3,530
Copper cathode sales (tonnes)	**2,210**	2,553
Toll processed and copper cathodes returned to ENAMI (tonnes)	**619**	698

During the six months ended June 30, 2020, a combination of circumstances, primarily driven by COVID-19 including a drop in the copper price and working capital issues contributed to a change in mining operations strategy. In an effort to reduce operational costs, certain measures were taken at the end of March 2020 including reductions in headcount, idling two mining operations and operating only the smaller Rajo Norte open pit, modifying plant shift schedules and purchasing high grade third party ore. By the end of the second quarter, copper prices had recovered that provided additional cash flows to the operation.

Total ore and waste tonnes mined decreased compared to the same period in the prior year (1.0 million tonnes in the six months ended June 30, 2020 compared to 3.6 million tonnes in the six months ended June 30, 2019). This is largely due to a significant decrease in tonnes of waste moved in the first two quarters of 2020 (0.7 million tonnes compared to 3.1 million tonnes for the six months ended June 30, 2019). Early in the year, the contractor for Don Gabriel demobilized and the majority of waste movement was halted with limited waste removal taken on internally by MTV. In addition, due to changes in mine sequencing, the expansion at Don Gabriel and Papomono underground were both temporarily put on hold in order to focus on more economic ore in a lower copper price environment and to better handle working capital issues.

Three Months Ended June 30, 2020

	Three months ended	
	Jun. 30, 2020	Jun. 30, 2019
Tonnes mined - underground operations	**480**	42,954
Tonnes mined - open pit operations	**52,191**	244,808
Total ore mined (tonnes)	**52,671**	287,762
Waste mined - open pit operations (tonnes)	**96,642**	1,576,667
MTV mine processed ore (tonnes)	**55,026**	293,024
Third-party processed ore (tonnes)	**19,799**	41,564
ENAMI tolling processed ore (tonnes)	**11,229**	19,300
Total processed ore (tonnes)	**86,054**	353,888
Metallurgical recovery - underground material (%)	**70.2%**	80.5%
Metallurgical recovery - open pit material (%)	**70.8%**	80.3%
Underground average ore grade (Cu%)	**0.86%**	0.97%
Open pit average ore grade (Cu%)	**0.98%**	0.56%
Copper cathode production (tonnes)	**1,228**	1,737
Copper cathode sales (tonnes)	**856**	1,251
Toll processed and copper cathodes returned to ENAMI (tonnes)	**280**	379

In late March 2020, officials of Salamanca formally requested MTV to temporarily halt or restrict operations as a measure to slow the advance of the pandemic and on March 23, 2020, the Company announced measures that were immediately implemented at MTV. These measures are continuing. In May 2020, MTV entered the Process.

During the three months ended June 30, 2020, the mining operation continued to run in a modified capacity experiencing certain operating challenges resulting from COVID-19 and working capital issues reflecting the impact of decisions taken earlier in the year as well as by rain and snow from the early weeks of winter weather. Two open pit mines remained idle and only the smaller Rajo Norte open pit continued to run. Supplemental ore was also contributed by third parties and ENAMI. The higher grades and faster leaching of the oxide ores provided by these sources are a better contribution based on the reduced production profile. There was limited activity at the Papomono underground site as it was principally in care and maintenance.

Total ore and waste tonnes mined decreased compared to the same quarter in the prior year (149 thousand tonnes in the three months ended June 30, 2020 compared to 1.9 million tonnes in the three months ended June 30, 2019). This is largely due to a significant decrease in tonnes of waste moved in the second quarter of 2020 (97 thousand tonnes compared to 1.6 million tonnes for the three months ended June 30, 2019), a decrease of 94%. During the first quarter of 2020, the contractor for Don Gabriel demobilized and the mine was put on care and maintenance. Ore mined decreased compared to the same quarter in the prior year (53 thousand tonnes in the three months ended June 30, 2020 compared to 288 thousand tonnes in the three months ended June 30, 2019) This was driven by the idling of the Don Gabriel and Papomono mines and focusing on more economic oxide ore from Rajo Norte, third party and ENAMI ores which have a shorter leaching cycle and helps produce higher production during this time. Production for the three months ended June 30, 2020 of 1,228 tonnes of copper cathodes was lower than the three months ended June 30, 2019 of 1,737 tonnes. The impact on copper production was largely driven by:

- a modified, reduced mine plan
- approximately two weeks of downtime to the mining operation during the quarter due to inclement weather
- the drought which continued during a portion of the second quarter of 2020
- periodic shortages of critical materials and supplies such as explosives, fuel and sulfuric acid affected both mine and plant production
- working capital challenges impacting the optimal balance of reagents in solution

	Three months ended			
	Sept. 30, 2019	Dec. 31, 2019	Mar. 31, 2020	Jun. 30, 2020
Total ore mined (tonnes)	345,371	313,196	248,816	52,671
Waste mined - open pit mine (tonnes)	1,441,922	1,678,096	638,266	96,642
Copper cathode production (tonnes)	1,646	1,879	1,484	1,228

LIQUIDITY AND CAPITAL RESOURCES

Cash

At June 30, 2020, the Company held cash and cash equivalents of $12.1 million of which nearly all of it was held by the Company directly (minimal amount held by MTV). Cash and cash equivalents are primarily comprised of cash in deposit accounts held with reputable financial institutions. The funds are not exposed to liquidity risk and there are no restrictions on the ability of the Company to use these funds to meet its obligations.

Cash and cash equivalents increased by $0.5 million in the six months ended June 30, 2020 primarily as a result of proceeds from the sale of Portfolio Investments of $2.8 million offset by cash and cash equivalents used in operating activities of $0.7 million and capital expenditures of $1.3 million.

As a condition of the Facility, the Company has provided the Lenders with a $10 million guarantee that represents the Company's only obligation to MTV. This amount is not included in the consolidated financial statements.

Working Capital

At June 30, 2020, the Company had a consolidated working capital deficiency of $49.3 million primarily as a result of re-categorizing the long-term portion of the Facility to current liabilities due to the ongoing events of default at MTV. Included in this working capital deficiency is cash of $12.1 million, restricted cash of $2.0 million, trade and other receivables of $1.1 million, current inventories of $6.5 million, other current assets of $1.8 million, and Portfolio Investments of $3.4 million. Liabilities included in the working capital deficiency include accounts payable and accrued liabilities of $30.7 million and the full amount of MTV's loans and borrowings of $45.5 million which includes $44.9 million related to the Facility. Excluding the MTV Segment, the Company had working capital of $14.6 million.

MTV filed for creditor protection in Chile on May 12, 2020 and the court order obtained provides a stay of creditor claims and the exercise of contractual rights providing the necessary protection to allow MTV to negotiate repayment terms with its creditors that should provide a financial foundation to grow MTV's business and improve its financial position. It is expected that if the Process is successful, a significant portion of accounts payable and accrued liabilities will be converted to long-term debt together with re-categorizing a large portion of the Facility balance to long-term debt also.

Commodity price variability will impact the Company as it undertakes to expand the mining operations at Papomono and Don Gabriel and increase throughput of the plant from its current sub-optimal utilization. The commodity price and exchange rate environment is volatile and accordingly will have an impact on the Company's cash flows.

Capital Resources

The Company's primary sources of capital resources are comprised of cash and cash equivalents, divestment of its remaining Portfolio Investments and its loans and borrowings. During the quarter, the Company disposed of all its shares of Corsa Coal and URC for gross proceeds of $2.8 million. In addition, on June 30, 2020, Beretta completed the sale of its business for cash consideration of $3.7 million. The amount expected to be received by SRHI of $1.1 million is included as a Portfolio Investment.

The Company continues to make progress in divesting its remaining Portfolio Investments.

In order to facilitate the management of its capital requirements, the Company prepares annual operating budgets that are approved by the Board. Due to the circumstances at the onset of 2020, the outstanding resolution of the Process and uncertainty due to COVID-19, the Company has not been able to finalize a budget for 2020. The Company continuously monitors its capital structure and, based on changes in operations and economic conditions, may adjust such structure by issuing new common shares or new debt as necessary.

The Company may seek additional capital at the Company or MTV level to complete development of its mineral properties and general working capital purposes. MTV currently operates in a high-cost environment. Working capital stresses exist at MTV and additional sources of capital may be required to execute MTV's planned operations. Such financing, if sought, will depend on a number of unpredictable factors, which are often beyond the control of the Company and MTV. These would include the realized price of the actual copper produced from MTV's operating mines, actual capital expenditures and the outcome of the Process. There can be no assurance that capital will be available to the Company or MTV in the amount required at any particular time or for any particular period, or, if available, that such financing can be obtained on satisfactory terms. The Company and MTV are exposed to liquidity risk.

The Company continues to review its near-term operating plans and take steps to reduce costs and maximize cash flow from operations.

Certain loan agreements contain operating and financial covenants that restrict the ability of MTV to, among other things, incur additional indebtedness needed to fund its operations, pay dividends or make other distributions, make investments, create liens, sell or transfer assets or enter into transactions with affiliates.

As a result of the initiation of the Process in May 2020, the capital resources of the Company and MTV could be negatively or positively impacted depending on the outcome of the Process. The outcome of the Process could provide sufficient financial flexibility for MTV to execute on its intended plans to expand its operations that is expected to produce sustainable positive cash flows that is also beneficial to the Company. Conversely, a negative outcome to the Process could result in the Company's $10 million corporate guarantee to be called and the potential for a full loss of the Company's equity investment in MTV.

The initiation of the Process is an event of default under the Facility agreement. The Lenders have informed MTV and the Company that it has chosen not to exercise its rights and remedies under the Facility at this time as a consequence of this event of default, but may choose to do so at any time in the future without any further written notice. As a result, the entire Facility amount is now considered a current liability.

MTV Going Concern

MTV has incurred significant operating losses and negative cash flows from operations in recent years, and has a working capital deficiency. Whether and when MTV can attain profitability and positive cash flows has recently been challenged as a result of Chile's social unrest and COVID-19 impacts. On March 18, 2020, Chile declared a state of catastrophe over the COVID-19 outbreak that restricts freedom of movement within the country. On March 21, 2020, officials of Salamanca formally requested MTV to temporarily halt or restrict operations as a measure to slow the advance of the pandemic and on March 23, 2020, the Company announced measures that were immediately implemented at MTV. These measures are continuing. Salamanca and its surrounding areas supply over 70% of the MTV mine site’s workforce. The extent of the effect of the COVID-19 pandemic on the Company’s business activities is uncertain. In addition, in May 2020, MTV entered the Process. These uncertainties cast significant doubt upon MTV’s ability to continue as a going concern.

The Company may need to raise capital in order to support MTV's operations. Raising capital may be adversely impacted by: a lack of normally available financing, current volatile market conditions, extended and unforeseen issues resulting from the current COVID-19 pandemic, uncertain water supply conditions in Chile and ongoing geopolitical issues in Chile. To address its financing requirements, the Company may seek financing through joint venture agreements, debt and equity financings, asset sales, rights offerings to existing shareholders or restructuring MTV's debt and payment terms with critical suppliers. The outcome of these matters cannot be predicted at this time.

MTV has a working capital deficiency of $63.9 million and negative equity. It has long-term leases of $0.7 million and subordinated debt payable to the Company of $19.5 million including capitalized interest. MTV does not expect to have sufficient liquidity to fund its operations over the next twelve months. The working capital deficiency significantly limits MTV's ability to fund capital expenditures and operations. During the three months ended June 30, 2020, MTV commenced reorganization proceedings by filing a JRP in Chile to seek protection from creditors that is expected to give MTV sufficient time to complete its refinancing efforts to allow for the completion of the construction of its underground mine. This is similar to filing for creditor protection under the Companies’ Creditors Arrangement Act in Canada. Under the Facility agreement, this is an event of default. The Lenders have informed MTV and the Company that it has chosen not to exercise its rights and remedies under the Facility at this time as a consequence of this event of default, but may choose to do so at any time in the future without any further written notice.

As a result, there are material uncertainties that cast significant doubt about MTV's ability to continue as a going concern. The continuation of MTV as a going concern is dependent on ongoing discussions with the Lenders, shareholders (including the Company) and its critical suppliers while in creditor protection to provide additional financial support through additional capital injections and revised supplier payment terms. This Process is expected to be completed during the third quarter of 2020 and if successful, is expected to generate sufficient liquidity and flexibility to finance operations into 2021 and 2022 when mining operations are expected to generate sufficient cash flow. Management is hopeful that the Process will be successful, however there is no assurance that it will be. Without a positive outcome to the Process, MTV may be forced to further curtail its operations and/or the Company to sell or liquidate MTV.

OPERATING SEGMENTS

The Company has two reportable segments. MTV is the Company's principal operating business. Corporate includes the Canadian corporate office that holds its Portfolio Investments.

Significant information relating to reportable operating segments is summarized below:

As at June 30, 2020	**MTV**	**Corporate**	**Total**
Total assets	$ 99,856	$ 14,944	**$ 114,800**
Total liabilities	$ 83,007	$ 387	**$ 83,394**

As at December 31, 2019	**MTV**	**Corporate**	**Total**

For the six months ended June 30, 2020, 87% of the revenues ($4.9 million) was from one customer. For the six months ended June 30, 2019, 92% of the revenues ($15.5 million) was from one customer. As at June 30, 2020, there was $0.5 million (December 31, 2019: $0.5 million) outstanding in trade and other receivables.

FINANCIAL UPDATE

Six Months Ended June 30, 2020

Gross loss

		Six months ended	
(in thousands)		**Jun. 30, 2020**	Jun. 30, 2019
Revenue	**$**	**12,090** $	16,686
Cost of sales		**(21,084)**	(21,349)
Gross loss	**$**	**(8,994)** $	(4,663)

Revenue

During the six months ended June 30, 2020, the Company recognized revenues of $12.1 million (six months ended June 30, 2019: $16.7 million) which included revenue from the sale of 2,210 tonnes of copper cathodes for $11.3 million (six months ended June 30, 2019: $15.5 million for 2,553 tonnes) and revenues from tolling services of $0.8 million (six months ended June 30, 2019: $1.2 million). Revenues were based on an average realized copper price of $2.32 per pound (six months ended June 30, 2019: $2.75 per pound).

Cost of sales

Cost of sales represent direct mining and plant costs (which include operating, non-capitalized waste stripping costs, maintenance and repair costs, mine site general and administrative costs, operating supplies and external services), employee compensation and benefits, depreciation and transportation costs. As at June 30, 2020, it was determined that the book value of the non-current portion of inventory exceeded its net realizable value by $1.2 million and together with an impairment of $3.8 million recognized at March 31, 2020, a total of $5.0 million was recognized as part of cost of sales for the six months ended June 30, 2020. As at June 30, 2020, a reversal of previous inventory impairments of $0.9 million was recognized as part of cost of sales for current inventory.

General and administrative expenses

		Six months ended		
		Jun. 30, 2020		Jun. 30, 2019
General and administrative expenses	**$**	**2,398**	$	3,481

General and administrative expenses ("**G&A**") include salaries and contracted services, management fees, public company reporting costs and other office expenses.

The Company's G&A for the six months ended June 30, 2020 compared with the six months ended June 30, 2019 decreased as a result of the elimination of the Management Service Fee payable (see the section *Management Fee* elsewhere in this MD&A) and decreased director stock based compensation.

Loss on portfolio investments

		Six months ended		
		Jun. 30, 2020		Jun. 30, 2019
Loss on portfolio investments	**$**	**1,294**	$	5,159

During the six months ended June 30, 2020, the Company disposed of its shares in URC and Corsa Coal for gross proceeds of $2.8 million resulting in a realized loss on portfolio investments of $27.3 million from the moment of acquisition of the investments. During the six months ended June 30, 2019, the Company began selling positions in both InPlay Oil Corp. ("**InPlay Oil**") and Virgina Energy Resources Inc. ("**Virginia Energy**") for gross proceeds of $0.4 million resulting in a realized loss on portfolio investments of $4.6 million.

For the six months ended June 30, 2020, the change in unrealized gains on portfolio investments was $26.0 million and is predominantly due to the reversal of previously recorded unrealized losses triggered by the dispositions of Corsa Coal and URC.

For the six months ended June 30, 2019, the change in unrealized loss on portfolio investments was $0.5 million and is predominantly due to the decrease in value of the Company's investments in Lac Otelnuk and InPlay Oil, partially offset by the reversal of previously recorded unrealized losses triggered by the partial dispositions of InPlay Oil and Virgina Energy.

Finance expenses, net

		Six months ended		
		Jun. 30, 2020		Jun. 30, 2019
Finance expenses, net	**$**	**3,261**	$	1,461

Finance expenses, net, primarily consists of interest on loans and the interest accretion on the decommissioning liability. The increase in finance expense is largely due to the higher average outstanding balance on the Facility for the six months ended June 30, 2020 ($42.7 million) compared to the six months ended June 30, 2019 ($14.6 million).

Other income (loss)

		Six months ended		
		Jun. 30, 2020		Jun. 30, 2019
Interest and other income	**$**	**306**	$	158
Foreign currency translation gain (loss)		**2,437**		(724)
	$	**2,743**	$	(566)

Foreign currency translation gain (loss)

During the six months ended June 30, 2020, the foreign currency gain was generated by the strengthening of the US dollar of approximately 10% compared to the Chilean peso and 5% compared to the Canadian dollar. During six months ended June 30, 2019, the foreign currency loss was generated by the weakening of the US dollar of approximately 2% compared to the Chilean peso and 4% compared to the Canadian dollar.

Impairment of non-current assets

During the six months ended June 30, 2020, the Company recognized an impairment charge of mineral properties, plant and equipment of $7.6 million. There was no impairment charge recorded in the six months ended June 30, 2019. See the section *Impairment of MTV CGU* elsewhere in this MD&A.

Three Months Ended June 30, 2020

Gross loss

	Three months ended	
(in thousands)	**Jun. 30, 2020**	Jun. 30, 2019
Revenue	**$ 4,943**	$ 8,078
Cost of sales	**(6,955)**	(11,181)
Gross loss	**$ (2,012)**	$ (3,103)

Revenue

During the three months ended June 30, 2020, the Company recognized revenues of $4.9 million (three months ended June 30, 2019: $8.1 million) which included revenue from the sale of 856 tonnes of copper cathodes for $4.6 million (three months ended June 30, 2019: $7.5 million for 1,251 tonnes) and revenues from tolling services of $0.4 million (three months ended June 30, 2019: $0.6 million). Revenues were based on an average realized copper price of $2.42 per pound (three months ended June 30, 2019: $2.70 per pound).

Cost of sales

Cost of sales represent direct mining and plant costs (which include operating, non-capitalized waste stripping costs, maintenance and repair costs, mine site general and administrative costs, operating supplies and external services), employee compensation and benefits, depreciation and transportation costs. As at June 30, 2020, it was determined that the book value of the non-current portion of inventory exceeded its net realizable value and an impairment in inventory of $1.2 million was recognized as part of cost of sales. In addition, a reversal of previous inventory impairments of $0.9 million was recognized as part of cost of sales for current inventory.

General and administrative expenses

	Three months ended	
	Jun. 30, 2020	Jun. 30, 2019
General and administrative expenses	**$ 1,159**	$ 1,749

G&A include salaries and contracted services, management fees, public company reporting costs and other office expenses.

The Company's G&A for the three months ended June 30, 2020 compared with the three months ended June 30, 2019 decreased as a result of the elimination of the Management Service Fee payable for the quarter (see the section *Management Fee* elsewhere in this MD&A) and decreased director stock based compensation.

Loss (gain) on portfolio investments

	Three months ended	
	Jun. 30, 2020	Jun. 30, 2019
Loss (gain) on portfolio investments	**$ (1,038)**	$ 6,821

During the three months ended June 30, 2020, the Company disposed of its shares in URC and Corsa Coal for gross proceeds of $2.8 million resulting in a realized loss on portfolio investments of $27.3 million from the moment of acquisition of the investments. During the three months ended June 30, 2019, the Company began selling positions in both InPlay Oil and Virginia Energy for gross proceeds of $0.4 million resulting in a realized loss on portfolio investments of $4.6 million.

For the three months ended June 30, 2020, the change in unrealized gains on portfolio investments was $28.3 million and is predominantly due to the reversal of previously recorded unrealized losses triggered by the dispositions of Corsa Coal and URC.

For the three months ended June 30, 2019, the change in unrealized loss on portfolio investments was $2.2 million and is predominantly due to the decrease in value of the Company's investments in Lac Otelnuk, Corsa Coal and InPlay Oil, partially offset by the reversal of previously recorded unrealized losses triggered by the partial dispositions of InPlay Oil and Virgina Energy.

Finance expenses, net

	Three months ended	
	Jun. 30, 2020	Jun. 30, 2019
Finance expenses, net	**$ 1,683**	$ 738

Finance expenses, net, primarily consists of interest on loans and the interest accretion on the decommissioning liability. The increase in finance expense is largely due to the higher average outstanding balance on the Facility for the three months ended June 30, 2020 ($42.6 million) compared to the three months ended June 30, 2019 ($14.8 million).

Other loss

	Three months ended	
	Jun. 30, 2020	Jun. 30, 2019
Other losses	**$ (50)**	$ (8)
Foreign currency translation loss	**(1,390)**	(289)
Other loss	**$ (1,440)**	$ (297)

Foreign currency translation loss

During the three months ended June 30, 2020, the foreign currency loss was generated by the weakening of the US dollar of approximately 4% compared to the Chilean peso and the Canadian dollar. During three months ended June 30, 2019, the foreign currency loss was generated by the weakening of the US dollar over the period of approximately 0.2% compared to the Chilean peso and 2% compared the Canadian dollar.

Impairment of non-current assets

There was no impairment charge during the three months ended June 30, 2020 and 2019.

IMPAIRMENT OF MTV CASH GENERATING UNIT ("CGU")

There was no impairment or reversal of a previously recognized impairment of the MTV CGU as at June 30, 2020.

As a result of the impairment identified as at March 31, 2020, management engaged an independent third-party to prepare an impairment test analysis that concluded that the recoverable amount of the MTV CGU was lower than its carrying value. From this analysis, management recorded an impairment charge of $7.6 million as a reduction in the carrying value of MTV's assets to the consolidated statements of operations and comprehensive loss for the six months ended June 30, 2020.

PORTFOLIO INVESTMENTS

Closing portfolio investments

			As at	
(in thousands)	Sector	Public/Private	**Jun. 30, 2020**	Dec. 31, 2019
Corsa Coal	Mining	Public	**$ —**	$ 4,065
Beretta	Agriculture	Private	**1,100**	n/a
Lac Otelnuk	Mining	Private	**2,200**	2,308
URC	Mining	Public	**50**	233
			$ 3,350	$ 6,606

During 2019, the Company was provided units (1 common share plus 1 non-trading warrant equals 1 unit) of URC as a condition of the loan investment it made in 2018 to a private royalty company. Upon the private royalty company going public, the Company was entitled to a fixed number of its units.

During the three months ended June 30, 2020, the Company sold its shares in Corsa Coal and URC for gross proceeds of $2.8 million resulting in a realized loss on these investments of $27.3 million from the moment of acquisition of the investments that is included in *Loss on portfolio investments* in the Condensed Interim Consolidated Statements of Operations and Comprehensive Loss. The realized loss was largely offset by a change in unrealized gains on portfolio investments of $26.0 million and was predominantly due to the reversal of previously recorded unrealized losses triggered by the dispositions of Corsa Coal and URC.

In addition, on June 30, 2020, Beretta completed the sale of its business for cash consideration of $3.7 million. Beretta's shareholders have approved the dissolution of Beretta and it is intended for Beretta to distribute its net cash over the next twelve months in two tranches beginning in the third quarter of 2020. The amount expected to be received by SRHI of $1.1 million is included as a Portfolio Investment.

SUMMARY OF QUARTERLY RESULTS

The following table contains selected quarterly financial information derived from the Company's financial statements and should be read in conjunction with the consolidated condensed quarterly financial statements reported under IFRS applicable to interim financial reporting.

	2020		2019				2018	
(in thousands, except per share amounts)	**Jun**	Mar	Dec	Sept	Jun	Mar	Dec	Sept
Revenue	**$ 4,943**	$ 7,147	$ 9,352	$ 9,650	$ 8,078	$ 8,608	$ 10,888	$ 6,039
Gross loss	**$ (2,012)**	$ (6,982)	$ (4,454)	$ (4,259)	$ (3,103)	$ (1,560)	$ (438)	$ (1,449)
Gain (loss) on portfolio investments	**$ 1,038**	$ (2,332)	$ (1,358)	$ (3,419)	$ (6,821)	$ 1,662	$ (12,631)	$ 2,597
Net loss from continuing operations	**$ (5,256)**	$ (15,576)	$ (21,398)	$ (8,619)	$ (12,708)	$ (2,622)	$ (13,631)	$ (1,149)
Net loss	**$ (5,256)**	$ (17,817)	$ (25,825)	$ (8,993)	$ (13,245)	$ (4,139)	$ (14,148)	$ (1,645)
Other comprehensive income (loss)	**$ 116**	$ (1,762)	$ 318	$ (326)	$ 544	$ 1,029	$ (2,935)	$ 1,098
Basic and diluted loss per share from continuing operations	**$ (0.16)**	$ (0.46)	$ (0.63)	$ (0.25)	$ (0.37)	$ (0.08)	$ (0.40)	$ (0.03)
Basic and diluted loss per share from net loss	**$ (0.16)**	$ (0.53)	$ (0.76)	$ (0.26)	$ (0.39)	$ (0.12)	$ (0.43)	$ (0.05)

The Company is not impacted materially by seasonality.

FINANCING ACTIVITIES BY THE COMPANY

It has been the Company's policy to have the capital available to support the growth of existing businesses and make new investments. In certain circumstances, the Company will provide loans or guarantees to its operating businesses in which it has significant ownership to further their respective business plans.

See the sections *Liquidity and Capital Resources* and *Commitments* and *Off-Balance Sheet Arrangements* elsewhere in this MD&A for additional details.

EQUITY DATA

Authorized capital:

Common shares, no par value, unlimited shares.

Issued and outstanding:

The Company had 34,082,992 common shares issued and outstanding as at June 30, 2020 and on the date hereof.

Outstanding warrants:

The Company had 201,138,560 common share purchase warrants outstanding as at June 30, 2020 and 201,138,300 on the date hereof. All common share purchase warrants have an exchange ratio of 20 warrants for 1 common share and expire on February 9, 2022 with an equivalent exercise price of CAD$6.66 per common share.

Outstanding stock options:

The number of stock options vested and outstanding as at June 30, 2020 was 150 thousand (December 31, 2019: 150 thousand) at an exercise price of CAD$3.80 (December 31, 2019: CAD$3.80). All stock options expire on November 17, 2020.

COMMITMENTS

*Management Services Agreement ("**MSA**")*

An MSA was entered into, effective February 8, 2017, between SRHI and SCLP, an entity which is directly and indirectly wholly-owned by Sprott Inc., replacing the old MSA (the "**Old MSA**") between SRC and SCLP. The MSA was amended on February 1, 2018 to reflect the Company's transition to a diversified holding company and further amended effective March 2, 2020 to reflect the reduction to the management fee and notice period. On June 23, 2020, the MSA was terminated. See the section *Management Fee* elsewhere in this MD&A.

The Company entered into a Transitional Support Agreement ("**TSA**") dated May 12, 2020 with SCLP to aid the Company in its transition to establish a management team independent of SCLP.

Under the MSA, management for SRHI were provided and had the power and authority to transact the business of SRHI and to deal with and in SRHI's assets for the use and benefit of SRHI, except as limited by any direction of the Board, and subject to certain limits on authority established from time to time by the Board.

Within the terms and conditions established by the Company, the management provided under the MSA managed SRHI's investment activities and assets, and administered the day-to-day operations of SRHI.

Contractual obligations of the Company as at June 30, 2020 are as follows:

		1 year		**1 - 3 years**		**More than 3 years**		**Total**
Accounts payable and accrued liabilities	$	30,661	$	—	$	—	**$**	**30,661**
Facility		45,000		—		—		**45,000**
Leases		653		1,143		—		**1,796**
Other non-current liabilities		894		1,632		563		**3,089**
Reclamation and other closure provisions		—		—		4,718		**4,718**
As at June 30, 2020	**$**	**77,208**	**$**	**2,775**	**$**	**5,281**	**$**	**85,264**

As of June 30, 2020, commitments to purchase (i) property, plant and equipment amounted to $0.2 million and (ii) mining operating supplies amounted to $0.2 million.

TRANSACTIONS WITH RELATED PARTIES

The Company entered into the following transactions with related parties during the six months ended June 30, 2020.

(i) *Management Fees*

Management fees and employment compensation pursuant to the MSA for the three and six months ended June 30, 2020 were $58 thousand and $123 thousand respectively (three and six months ended June 30, 2019: $0.5 million and $1.1 million respectively). On February 18, 2020, the Company announced it had reached an agreement to amend the MSA with SCLP eliminating the management fee and reducing the termination notice period as described in the MSA to three months. In return, the Company agreed to bear some of the direct costs of SCLP provided management. These amounts are presented as management fees.On June 23, 2020, the MSA was terminated (see *Management Fee* elsewhere in this MD&A). As at June 30, 2020, there was $nil (December 31, 2019: $0.4 million) payable to SCLP for management fees calculated pursuant to the MSA.

(ii) Key Management Compensation

Compensation for services paid or payable to executive officers and independent directors of the Company is shown below:

	Three months ended		Six months ended	
	Jun. 30, 2020	Jun. 30, 2019	**Jun. 30, 2020**	Jun. 30, 2019
Compensation paid by and on behalf of SRHI for executive management services provided to the Company (including stock-based compensation)	**$ 58**	$ 94	**$ 123**	$ 217
Directors fees and stock-based compensation	**90**	164	**178**	280
	$ 148	$ 258	**$ 301**	$ 497

(iii) *Mine Contracting Services*

For the three and six months ended June 30, 2020, $nil and $5 thousand respectively was paid to Vecchiola S.A. (three and six months ended June 30, 2019: $0.4 million and $2.9 million respectively), a mining contractor. As at June 30, 2020, a balance of $6.9 million (December 31, 2019: $5.4 million) payable to Vecchiola S.A. remained outstanding. Vecchiola S.A. is a related party to MTV through MTV's minority shareholder.

NON-IFRS PERFORMANCE MEASURES

This document includes certain non-IFRS performance measures that do not have a standardized meaning prescribed by IFRS. These measures may differ from those used by, and may not be comparable to such measures as reported by, other issuers. The Company believes that these measures are commonly used by certain investors, in conjunction with conventional IFRS measures, to enhance their understanding of the Company's performance. These measures have been derived from the Financial Statements and applied on a consistent basis. The following tables below provide a reconciliation of these non-IFRS measures to the most directly comparable IFRS measure.

The following non-IFRS performance measures are for the three and six months ended June 30, 2020 and 2019.

C1 Cash costs per pound produced

C1 Cash costs of production include all costs absorbed into inventory less non-cash items such as depreciation and non-site charges such as trucking charges capitalized to inventory. Site cash costs per pound produced are calculated by dividing the aggregate of the applicable costs by copper pounds produced. These measures are calculated on a consistent basis for the periods presented.

	Three months ended		Six months ended	
	Jun. 30, 2020	Jun. 30, 2019	**Jun. 30, 2020**	Jun. 30, 2019
Cost of Sales[1]	$ 6,955	$ 11,181	$ 21,084	$ 21,349
Depreciation	(1,039)	(1,509)	(3,003)	(3,111)
Net change in finished goods inventory	764	674	(574)	1,722
Transportation costs	(101)	(271)	(220)	(918)
C1 Cash costs of production	**6,579**	**10,075**	**17,287**	**19,042**
Pounds of copper produced (thousands)	2,707	3,829	5,979	7,783
Cash cost of copper produced (USD per pound)	**$ 2.43**	**$ 2.63**	**$ 2.89**	**$ 2.45**

[1] *Includes inventory write-down of $0.3 million and $4.1 million for the three and six months ended June 30, 2020 , respectively.*

Realized copper price

Realized copper price is calculated as total revenue from sale of copper cathodes divided by pounds of copper cathodes sold.

	Three months ended		Six months ended	
	Jun. 30, 2020	Jun. 30, 2019	**Jun. 30, 2020**	Jun. 30, 2019
Realized copper price (USD per pound)	**$ 2.42**	$ 2.70	**$ 2.32**	$ 2.75

Working Capital

Working capital is determined based on current assets and current liabilities as reported in the Financial Statements. The Company uses working capital as a measure of the Company's short-term financial health and operating efficiency. The following table provides a calculation of working capital based on amounts presented in the Financial Statements as at June 30, 2020 and December 31, 2019.

	As at	
	Jun. 30, 2020	Dec. 31, 2019
Cash and cash equivalents	**$ 12,122**	$ 11,607
Restricted cash	**2,000**	—
Trade and other receivables	**1,050**	2,600
Inventories	**6,504**	14,056
Other current assets	**1,821**	753
Portfolio investments	**3,350**	6,606
Current assets	**26,847**	35,622
Current liabilities	**76,156**	31,120
Working capital (deficiency)	**$ (49,309)**	$ 4,502

[1] *Working capital for the Corporate segment is $14.6 million (includes Beretta) and for the MTV segment there is a working capital deficiency of $63.9 million.*

EBITDA and Adjusted EBITDA

EBITDA represents earnings before interest, income taxes and depreciation. Adjusted EBITDA includes further adjustments for non-recurring items and items not indicative to the operating performance of the Company. The Company believes adjusted EBITDA is a more appropriate supplemental measure of debt service capacity and performance of its operations. Adjusted EBITDA is calculated by removing the write-down of inventory, impairment of non-current assets and unrealized gain or loss on portfolio investments.

	Three months ended		Six months ended	
	Jun. 30, 2020	Jun. 30, 2019	**Jun. 30, 2020**	Jun. 30, 2019
Net loss from continuing operations	**$ (5,256)**	$ (12,708)	**$ (20,832)**	$ (15,330)
Add:				
Finance expense	**1,683**	738	**3,261**	1,461
Depreciation	**1,039**	1,509	**3,003**	3,111
EBITDA from continuing operations	**(2,534)**	(10,461)	**(14,568)**	(10,758)
Write-down of inventory	**301**	865	**4,106**	865
Loss (gain) on portfolio investments	**(1,038)**	6,821	**1,294**	5,159
Impairment of non-current assets	**—**	—	**7,628**	—
Adjusted EBITDA from continuing operations	**$ (3,271)**	$ (2,775)	**$ (1,540)**	$ (4,734)

MANAGEMENT FEE

On May 13, 2020, the Company announced that it agreed to end the MSA with SCLP effective June 23, 2020. The Company entered into a TSA with SCLP pursuant to which SCLP will provide certain ongoing support services without cost to SRHI until no later than December 31, 2020 to ensure the continued operation of the Company with no disruption due to the termination of the MSA as SRHI transitions to establish a management team independent of SCLP. There was no payment required by the Company to be made to SCLP or any Sprott Inc. affiliate as a result.

As a result of the the termination of the MSA:

- All employees of Sprott Inc. and its affiliates resigned as directors or officers of the Company or its subsidiaries. Each of Rick Rule, Michael Harrison and Andrew Stronach did not stand for re-election at the Company's annual general meeting in June 2020;
- Terry Lyons, the Chairman of the Board of the Company, became the Interim Chief Executive Officer;
- Michael Staresinic became a direct employee of the Company as President and Chief Financial Officer. The Board of Directors of the Company will determine the composition of the balance of the Company’s management team in due course; and
- The Company changed its name to “SRHI Inc.”

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

There were no significant changes in the Company's internal controls over financial reporting that occurred during the three months ended June 30, 2020, that have materially affected, or are reasonably likely to have materially affected, the Company's internal controls over financial reporting. A control system, no matter how well conceived or operated, can only provide reasonable, not absolute, assurance that the objectives of the control system are met.

SCIENTIFIC AND TECHNICAL INFORMATION

Unless otherwise noted or indicated, scientific and technical content contained in this MD&A related to MTV is based on information prepared by Dr Antonio Luraschi, RM CMC, Manager of Metallurgic Development and Senior Financial Analyst, Wood, Mr Sergio Navarrete, RM CMC, Mining Engineer, Wood, Mr Alfonso Ovalle, RM CMC, Mining Engineer, Wood, Mr Michael G. Hester, FAusIMM, Vice President and Principal Mining Engineer, Independent Mining Consultants, Inc., Mr Enrique Quiroga, RM CMC, Mining Engineer, Q&Q Ltda, Mr Gabriel Vera, RM CMC, Metallurgical Process Consultant, GVMetallurgy, and Mr Sergio Alvarado, RM CMC, Consultant Geologist, General Manager and Partner, Geoinvestment Sergio Alvarado Casas E.I.R.L. all of whom were independent qualified persons as defined by NI 43-101 at the time the Technical Report was prepared. The Technical Report was filed by SRHI on SEDAR on December 14, 2018 at www.sedar.com. Readers are encouraged to read the Technical Report in its entirety.

RISK MANAGEMENT

The Company thoroughly examines the various financial instruments and risks to which it is exposed, most of which are beyond the control of the Company, and assesses the impact and likelihood of those risks. These risks may include market risk, interest rate risk, foreign currency risk, commodity price risk, price risk, credit risk and liquidity risk. Where material, these risks are reviewed and monitored by experienced managers, advisors and consultants, by maintaining adequate liquidity, and by cost control initiatives.

The Company invests in securities of private companies. In some cases, the Company may be restricted by contract or by applicable securities laws from selling such securities for a period of time. The inability to sell such securities may impair the Company's ability to exit these Portfolio Investments when the Company considers it appropriate.

The Company may need to raise capital in order to support MTV's operations including development of its mineral properties and general working capital purposes. MTV currently operates in a high-cost environment as it expands production. Working capital stresses exist at MTV and additional sources of capital may be required to execute MTV's planned operations. Such financing, if sought, will depend on a number of unpredictable factors, which are often beyond the control of the Company and MTV. Raising capital may be adversely impacted by: a lack of normally available financing, current volatile market conditions, extended and unforeseen issues resulting from the current COVID-19 pandemic, uncertain water supply conditions in Chile, ongoing geopolitical issues in Chile and the resolution of the Process. To address its financing requirements, the Company may seek financing through joint venture agreements, debt and equity financings, asset sales, rights offerings to existing shareholders or restructuring MTV's debt and payment terms with critical suppliers. The outcome of these matters cannot be predicted at this time and there can be no assurance that capital will be available to the Company or MTV in the amount required at any particular time or for any particular period, or, if available, that such financing can be obtained on satisfactory terms. The Company and MTV are exposed to liquidity risk.

COVID-19

In March 2020, the World Health Organization declared a global pandemic related to COVID-19. The current and expected impacts on the global economy are anticipated to be far-reaching. To date there have been significant stock market declines, recoveries and volatility, significant volatility in commodity and foreign exchange markets, restrictions on the conduct of business in many jurisdictions and the global movement of people and some goods have become restricted. There is significant ongoing uncertainty surrounding COVID-19 and the extent and duration of the impacts that it may have on global financial markets and placing further volatility on copper prices.

Beginning in the quarter ended March 31, 2020, the Company made efforts to safeguard the health of its employees, while continuing to operate safely and responsibly maintain employment and economic activity. These measures combined with copper price fluctuations resulting from COVID-19 have affected the Company's financial results. As at March 31, 2020, MTV recorded inventory write-downs of $3.8 million with additional write-downs of inventory or reversals of previous write-downs taken may occur over the balance of 2020 and thereafter as copper prices fluctuate. During the three months ended June 30, 2020, there was an impairment write-down of the non-current portion of inventory of $1.2 million and a reversal of write-downs of current inventory of $0.9 million. The Company recorded a mineral properties, plant and equipment impairment in the first quarter of $7.6 million related to the MTV CGU but no additional impairment or reversal of a previously recorded impairment was recognized during the three months ended June 30, 2020. There is heightened potential for further impairment or reversal of these over the balance of 2020 and thereafter. In the current environment, assumptions about future copper prices, exchange rates, interest rates and market transactions are subject to greater variability than normal, which could in the future significantly affect the valuation of the Company’s assets. As an understanding of the longer-term impacts of COVID-19 on commodity, credit and equity markets develops, there is heightened potential for changes in these views over the balance of 2020.

Going Concern

The Company is subject to numerous risk factors that may impact its ability to economically produce copper cathodes from MTV, such as, but not limited to, current volatile market conditions, extended and unforeseen issues resulting from the current COVID-19 pandemic, uncertain water supply conditions in Chile and ongoing geopolitical issues in Chile. The Company has incurred significant operating losses and negative cash flows from operations in recent years and has a working capital deficiency of $49.3 million, arising from the consolidation of MTV, its principal operating business. On May 12, 2020, MTV commenced reorganization proceedings by filing a JRP in Chile to seek protection from creditors that is expected to give MTV sufficient time to complete its refinancing efforts to allow for the completion of the construction of its underground mine. The Company, MTV, the Lenders and its critical suppliers remain in a process of continuing dialogue to find a solution to the on-going liquidity and global economic issues being faced by MTV. This plan is expected to be completed during the third quarter of 2020 and is expected to generate sufficient liquidity and flexibility to finance operations into 2021 and 2022 when mining operations are expected to generate sufficient cash flow. Management believes that the plan is likely to be completed, however there is no assurance that it will be. Without this plan, MTV may be forced to further curtail its operations and/or the Company to sell or liquidate its principal operating business, MTV. These circumstances result in material uncertainty and cast significant doubt as to the Company’s ability to continue as a going concern.

Creditor Protection Filing of MTV

On May 12, 2020, MTV filed for creditor protection in Chile. This is an event of default under the Facility that MTV has with the Lenders that could result in the Company's $10 million guarantee that it has provided to be called upon on demand. At this time, the Lenders have neither demanded repayment of the senior debt nor the $10 million guarantee. Should current negotiations with creditors during the Process be unsuccessful, the Lenders could demand repayment of the senior debt and/or the $10 million guarantee and MTV may be forced to further curtail its operations and/or the Company to sell or liquidate MTV.

In the event that MTV exits the Process with the support of its creditors, MTV may not be able to execute the agreed post-Process mine plan as a result of various risks inherent in the mining industry, including execution risk, copper price risk and operating risks. There can be no assurance that MTV will be able to manage effectively the expansion of its operations or that its current personnel, systems, procedures and controls will be adequate to support these expanded operations.

Termination of MSA

The Company announced on May 13, 2020 that it has agreed to its management services relationship with SCLP and transition to establish a management team independent of SCLP. Under the MSA, management of the Company was provided by SCLP. On June 23, 2020, the MSA was terminated. The Chairman of the Board of the Company became the interim Chief Executive Officer and Michael Staresinic, the Chief Financial Officer of the Company continued in that role and also became President and is now a direct employee of the Company. The Board of the Company will determine the composition of the balance of the Company's management team in due course. The failure to secure a management team for the Company could result in significant operational and regulatory issues for the Company including a delisting of the Company's securities on the Toronto Stock Exchange ("**TSX**").

Delisting Review

The Company announced on May 13, 2020 that the TSX is reviewing the the eligibility of the Company's securities for continued listing on the TSX pursuant to the requirements of the TSX Company Manual (the "**Manual**"). The Company is being reviewed under the TSX's remedial review process and has been granted 120 days to comply with all requirements for continued listing. If the Company cannot demonstrate that it meets applicable TSX requirements set out in Part VII of the Manual on or before September 10, 2020, the Company's securities will be delisted 30 days from such date. The Company's securities will continue to trade on the TSX during the remedial review process.

There can be no assurance that the Company will successfully regain compliance with the TSX listing requirements within this time period, in which case the Company's securities would cease to trade on the TSX. In the event that the Company is required to delist, the Company anticipates having alternatives for providing shareholders a platform to transact which may include a listing on the TSX Venture Exchange or NEX Exchange. The TSX's review was initiated as result of the Company's announcement that MTV had filed for the Process.

For a discussion of additional risks applicable to the Company and its business and operations, including risks related to the Company's foreign operations, see "Risk Factors" in the Company's Annual Information Form for the year ended December 31, 2019 and dated March 24, 2020.

OFF-BALANCE SHEET ARRANGEMENTS

As at June 30, 2020, the Company has provided the Lenders with a $10 million guarantee that represents the Company's only obligation to MTV. This amount is not included in the consolidated financial statements.

The filing by MTV for the Process is an event of default under the Facility that MTV has with its Lenders that could result in the Company's $10 million guarantee that it has provided to be called upon on demand. At this time, the Lenders have neither demanded repayment of the senior debt nor the $10 million guarantee. As at the date hereof, the Company has sufficient cash resources to fulfill this guarantee.

ADVISORY

Forward-Looking Information

Certain statements in this MD&A, and in particular the "Current Events", "Outlook" (including with respect to social unrest and drought in Chile and COVID-19) and "Liquidity and Capital Resources" sections, contain forward-looking information (collectively referred to herein as the "**Forward-Looking Statements**") within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify Forward-Looking Statements. In particular, but without limiting the forgoing, this MD&A contains Forward-Looking Statements pertaining to: (i) the impact of COVID-19; (ii) the results of negotiations with MTV's lenders and suppliers; (iii) expectations regarding the outcome of the Process (iv) expectations regarding the $10 million guarantee (v) expectations and requirements for additional capital; (vi) expectations regarding the costs, timing and benefits of constructing and mining Papomono Masivo (vii) expectations regarding the costs, timing and benefits of the Salt Leach; (viii) expectations regarding MTV production; (ix) expectations regarding the MTV mine expansion and processing capacity, including the anticipated expansion methods, costs, timing and the benefits derived from the expansion; (x) expectations detailed in the "Liquidity and Capital Resources" section, including the Company may seek additional capital to complete development of MTV's mineral properties and general working capital; additional sources of capital may be required to execute MTV's planned operations; the Company may issue new common shares or new debt as necessary; the capital resources of the Company and MTV could be negatively or positively impacted depending on the outcome of the Process; the outcome of the Process could provide sufficient financial flexibility for MTV; expected repayment of the Facility and the timing thereof, compliance with debt covenants; MTV's ability to continue as a going concern and the successful completion of discussions and a plan in respect thereof, as well as the timing and terms of such plan; (xi) the economic and study parameters of MTV; (xii) mineral resource and mineral reserve estimates; (xiii) the cost and timing of development of MTV; (xiv) the proposed mine plan and mining methods; (xv) dilution and extraction recoveries; (xvi) processing method and rates and production rates; (xvii) projected metallurgical recovery rates; (xviii) additional infrastructure requirements or infrastructure modifications; (xix) capital, operating and sustaining cost estimates; (xx) the projected life of mine and other expected attributes of MTV; (xxi) the NPV and IRR and payback period of capital; (xxii) future metal prices; (xxiii) changes to MTV's configuration that may be requested as a result of stakeholder or government input; (xxiv) government regulations and permitting timelines; (xxv) estimates of reclamation obligations and expectations regarding future obligations for mine closure activities; (xxvi) environmental risks; (xxvii) future purchasing of mineralized material; (xxiii) continued purchasing of mineralized material from a large number of small-scale third-party miners and toll milling mineralized material from ENAMI; (xxix) expectations regarding the copper market, including supply, demand, pricing and value drivers; (xxxx) expectations regarding imposed tariffs on economic growth; (xxxi) continued unrest in Chile; (xxxii) sales under the Offtake; (xxxiii) expected proceeds from Beretta and the timing thereof; (xxxiv) anticipated divestitures of the remaining Investment Portfolio and timing thereof and (xxxv) general business and economic conditions.

Although SRHI believes that the Forward-Looking Statements are reasonable, they are not guarantees of future results, performance or achievements. A number of factors or assumptions have been used to develop the Forward-Looking Statements, including: (i) there being no significant disruptions affecting the development and operation of MTV; (ii) the availability of certain consumables and services and the prices for power and other key supplies being approximately consistent with assumptions in the Technical Studies; (iii) labour and materials costs being approximately consistent with assumptions in the Technical Studies; (iv) fixed operating costs being approximately consistent with assumptions in the Technical Studies;(v) permitting and arrangements with stakeholders being consistent with current expectations as outlined in the Technical Studies; (vi) certain tax rates, including the allocation of certain tax attributes, being applicable to MTV; (vii) the availability of financing for MTV's planned development activities; (viii) assumptions made in mineral resource and mineral reserve estimates and the financial analysis based on the mineral reserve estimate and in the case of the Preliminary Economic Assessment, the mineral resource estimate, including (as applicable), but not limited to, geological interpretation, grades, commodity price assumptions, extraction and mining recovery rates, hydrological and hydrogeological assumptions, capital and operating cost estimates; (ix) natural resource markets and the price of various natural resources, including copper, oil and coal, in the future; (x) the continued availability of quality management; (xi) the effects of regulation and tax laws of governmental agencies will not materially change; (xii) commodity prices variability; (xiii) critical accounting estimates; (xiv) general marketing, political, business and economic conditions; (xv) current constructive negotiations with the Lenders will continue; (xvi) the Process will be successful; (xvii) existing water supply will continue; (xviii) supplemental water availability will continue; and (xix) SRHI will not be delisted from the TSX. Actual results, performance or achievements could vary materially from those expressed or implied by the Forward-Looking Statements should assumptions underlying the Forward-Looking Statements prove incorrect or should one or more risks or other factors materialize, including: (i) possible variations in grade or recovery rates; (ii) commodity price fluctuations and uncertainties, including for copper; (iii) delays in obtaining governmental approvals or financing; (iv) risks associated with the mining industry in general (e.g., operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of estimates and projections relating to mineral reserves, production, costs and expenses; and labour, health, safety and environmental risks) and risks associated with the other portfolio companies' industries in general; (v) performance of the counterparty to the ENAMI Tolling Contract; (vi) risks associated with investments in emerging markets; (vii) general economic, market and business conditions; (viii) market volatility that would affect the ability to enter or exit investments; (ix) failure to secure financing in the future on terms acceptable to the Company, if at all; (x) commodity price fluctuations and uncertainties; (xi) those risks disclosed herein or in SRHI's Management's Discussion and Analysis for the year ended December 31, 2019 under the heading "Risk Management"; and (xii) those risks disclosed under the heading "Risk Factors" or incorporated by reference into SRHI's Annual Information Form dated March 24, 2020. The Forward-Looking Statements speak only as of the date hereof, unless otherwise specifically noted, and SRHI does not assume any obligation to publicly update any Forward-Looking Statements, whether as a result of new information, future events or otherwise, except as may be expressly required by applicable Canadian securities laws.

Cautionary Note to United States Investors Concerning Estimates of measured, indicated and inferred mineral resources

This MD&A may use the terms "measured", "indicated" and "inferred" mineral resources. United States investors are advised that while such terms are recognized and required by Canadian regulations, the United States Securities and Exchange Commission does not recognize them. "Inferred mineral resources" have a great amount of uncertainty as to their existence, and as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or other economic studies. United States investors are cautioned not to assume that all or any part of measured or indicated mineral resources will ever be converted into mineral reserves. United States investors are also cautioned not to assume that all or any part of an inferred mineral resource exists or is economically or legally mineable.
